

Détecteur électrique Stylo

Zero/Fire Wire test

Red Indicator Light

Sound light alarm

12/48-1000V

Line break detection

When a breakpoint is detected along the line, the electric pen stops beeping
And the flashing light is the breakpoint location

Line break detection

Zero Fire Wire Identification

According to the voltage signal strength and lighting to determine the neutral line and live line

Zero line

Orange light flashes **slowly**
Slow beep,
low voltage electric field

FireWire

Red light flashes **quickly**
Rapid beeping,
high voltage electric field
